

The Johns Hopkins Hospital Acute Care Occupational Therapy Fellowship

This fellowship, accredited by the American Occupational Therapy Association, aims to develop occupational therapists who will:

- Provide innovative and evidence-based care to the medically complex population based on their client factors, performance skills and occupational profile.
- Advocate for and advance the integral role of occupational therapy and rehabilitation in the management and prevention of impairments.
- Possess system skills, such as outcome measurement, quality improvement, project management and leadership, within an interdisciplinary team.

Program benefits:

- Salary and full-time benefits, including paid time off
- One-on-one clinical mentoring
- Variety of unique didactic experiences
- Opportunity to participate in clinical research
- Leadership skill development

Details:

- 12-month long program
- Clinical exposure to all acute care occupational therapy service lines
- Multidisciplinary structured observations
- Participation in scholarly activities, including case presentations, multidisciplinary education and clinical education
- Research opportunities, including early mobility and activity in the ICU, preventing readmissions, and diagnosis-specific quality improvement
- Participation in Johns Hopkins research development program

Eligibility Criteria

The program is open to new graduates and practicing clinicians who are current AOTA members and have:

- Bachelor of Science, Master's or Doctoral Degree from an accredited occupational therapy academic program
- License from the Maryland Board of Occupational Therapy Practice (or qualified to obtain one)
- Completed clinical internships as required by the academic program
- AHA CPR certification
